GUIDE DETAIL # E-2

01/24

NOTES:

- This detail is for a traditional saw-cut commonly used in concrete construction for crack control with a single divider strip.
- Specific conditions or variable conditions may alter the details of this recommendation. Refer to NTMA Control Joint Detail #1 for more information and optional use of two divider strips with an elastomeric joint filler.

General Disclaimer: *The information provided in the guide detail is for general informational purposes only. Each project and individual application are unique. All information is provided in good faith: However, NTMA makes no representations or warranties of any kind, express or implied, regarding the accuracy, adequacy, validity, reliability, or completeness of any information provided herein.*
